SINCE 1968

Ultimum

NOTHING IS IMPOSSIBLE

PIRNAR ULTIMUM HANDMADE COLLECTION

2017

We believe in miracles.

We believe in the boundless potential of human imagination.
We believe in a future pushing the limits of what is possible. We are proud
to be trend creators and the first choice for those with exquisite taste
thanks to the best of our products.

For those who know that nothing is impossible.

For you.

A handwritten signature in red ink, appearing to read 'Roman Pirnar', is centered on the page.

Roman Pirnar

owner and CEO, Pirnar d. o. o.

*The closest thing
to perfection*

PIRNAR ULTIMUM®

It catches your eye from a distance.

You walk towards it, subconsciously picking up the pace. You cannot look away, cannot help but smile. What divine pleasure it is to feel these surfaces and shapes under your fingertips! You run your hand over it in awe as it takes your breath away.

It's unforgettable. An aesthetic and technical masterpiece, it has been honoured at the German Design Awards three times between 2015 and 2017.

Pirnar Ultimium®. Made to impress.

DRUŠTVO
OBLIKOVALCEV
SLOVENIJE

To be one's self, and unafraid whether right or wrong, is more admirable than the easy cowardice of surrender to conformity.

—— IRVING WALLACE

YOU ARE EXCEPTIONAL.

There is no one like you. You make your own way like no one else. Others admire your independent mind and the courage it takes to live true to yourself.

It is very rare that something takes our breath away, surprises us with its glory, overwhelms our senses, hearts and minds. Pirnar entrances stand out due to

their unique shapes, materials, masterful precision and smart innovations. They make those who follow green with envy.

You understand why immediately. Pirnar entrances are the product of passion and the conviction that there are no limits. Which is what guides you in life as well.

*You gain strength, courage and confidence
by every experience in which you really
stop to look fear in the face.*

——— ELEANOR ROOSEVELT

YOU BELIEVE IN YOURSELF.

You know very well that confidence is something we create ourselves day by day. That it is a skill, not something you are born with. That it is the result of believing in your ability to change the world and having a clear vision for the future. You believe that you can be the best.

At Pirnar, we believe that nothing can stop us in our search for superlatives. Every innovation we present to

the world makes us want to do better. We are driven by an unremitting inner force that makes us want to push the limits of the possible.

We create for people who believe in themselves. For people like you.

*Innovation distinguishes
between a leader and a follower.*

—— STEVE JOBS

YOU ARE CREATIVE.

You hold the power to change yourself – as well as the world around you. You see every obstacle as a challenge that is bound to be solved sooner or later.

At Pinar, we do not believe in the impossible either. We were the first to create both a multi-level door design and a fully flat entrance. We were the first to mass-produce aluminium entrances of extraordinary sizes, the first to

use 5-layer vitrification and quadruple sealing. We regularly break world records for the rate of thermal insulation with aluminium doors.

We take raw materials, inspiration and passion and create things with our hands that turn people's heads. It is a pleasure to create for creative people.

*To improve is to change;
to be perfect is to change often.*

—— WINSTON CHURCHILL

YOU ARE PERFECT.

We are born perfect, but then life denies us this secret by moulding and shaping us in different ways. It takes decades upon decades to rediscover our temperament and realise that, at our core, we are – perfect.

Nature is perfect. Its immense power has created wonders that the human mind can barely comprehend, that excite scientists and astound each and every one of us. Its only

constant is its constant progress. Perpetual optimisation. Ceaseless improvement of everything in existence.

We believe that that is an example to be followed. We are not satisfied with excellence. Or greatness. We know there is always room for improvement. The only way we know leads to perfection. To what we are at our very core.

*Follow the crowd and you will never
be followed by a crowd.*

———— HANNAH WHITALL SMITH

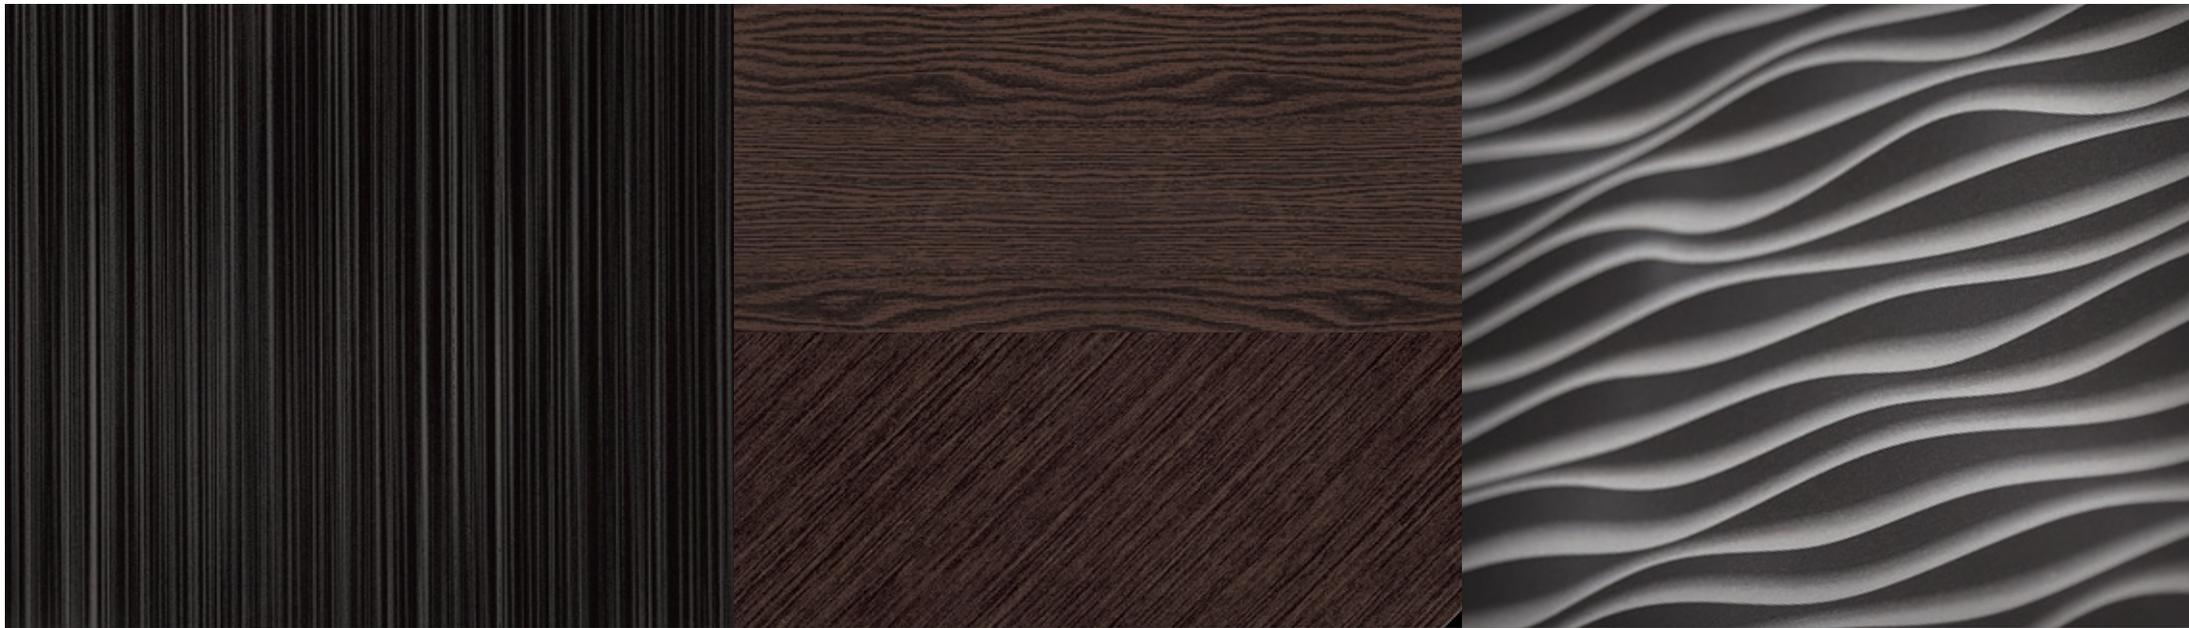

YOU ARE UNIQUE.

There is no one like you. The way you live is unique.

Your home is priceless, it is exceptional. Unique in the world - as you are. You live, create and dream in it in your own special way. Your home is your fingerprint – a unique combination of style that expresses who and what you are. A person who does not compromise. Who accepts only perfection, as perfected by himself.

The entrance is the first point of contact with your home. It is an indicator of what is inside. And what do you carry in yourself. Gracious, determined, committed to excellence.

Pirnar entrances are proof of your uniqueness, which is obvious to people at first sight.

Handle with optional opening function

Handle with cylinder function

Inside handle - aligned

Threshold detail

A designer knows he has achieved perfection not when there is nothing left to add, but when there is nothing left to take away.

— ANTOINE DE SAINT-EXUPERY

YOU DO NOT ACCEPT COMPROMISE.

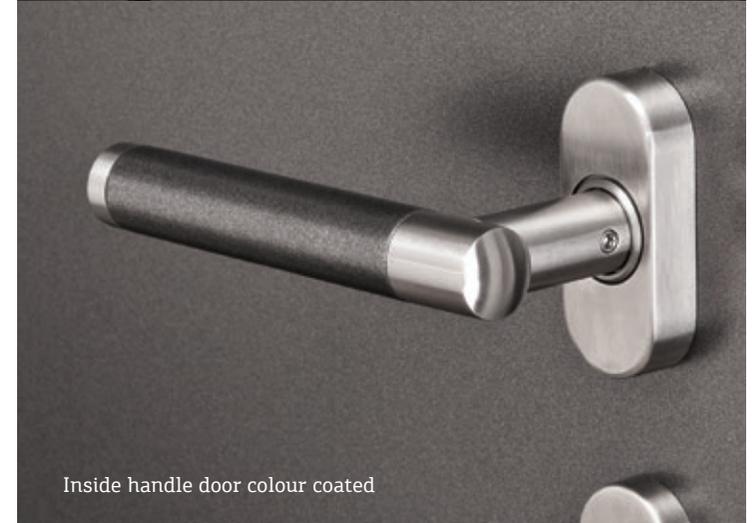

When it comes to the most important things in life, there is no middle way. Just as there is no middle way between the real and the unreal, the excellent and the average, or excitement and boredom.

At Pinar, we only have one goal – to amaze. Once the goal is set, no obstacle can make us change it. We persevere. We refuse to give up. For as long as it takes for a solution to present itself and find its way into the world. Onto the desks of our designers, engineers and experts with their magic hands. Where the impossible becomes possible.

You do not accept compromise. For you, as for us, the only option is to find a solution that will elicit pride when you look at your door.

Protective element with hidden finger scanner and LED illumination

Inside handle door colour coated

Demonstration of door opening

Only those who believe in themselves shine when it matters.

— MAURICE GREENE

YOU SHINE WHERE OTHERS DO NOT.

Not everyone can be a shining example to others. You are. You are an example of what you can achieve in life. You are proof that having a vision, courage and perseverance allows you to tackle all obstacles and create light where there was once darkness.

Such as with Pirnar doors. When they light up, it looks like magic. The night is no longer the dark part of the day, it is instead a lightshow that does not end until morning. A handle with enigmatic illumination, abundant light decor on the door itself, a softly lit doorstep. The awe never ends. The entrance – no, the home itself – comes alive.

Your home is now warm, inviting, comfortable and safe. Shine like a star!

Big results require
big ambition.

HERACLITUS

YOU KNOW WHAT YOU WANT.

Do not conform to the expectations of others, silly fashion trends and nonsensical rules. You want your life to excite you. And you want it to be better than ever before.

Pirnar offers a revolutionary choice.

ALUMINIUM, WOOD OR BOTH?

A revolutionary choice of material.

Pirnar Ultimium® entrances can be made of aluminium, wood or a combination of the two. Upon entering, you can be greeted by the uncompromising firmness of aluminium or embraced by delicate wood.

Only the best know what they want. Free your mind. Forget all limitations. Make your decisions freely.

Everything is possible with *Pirnar Ultimium®* entrances.

Models, suitable for higher dimensions. Option **GRANDE** is available for the **ALUMINIUM** entrances.

GRANDE

For the grand.

Sometimes size does matter. Spacious rooms with high ceilings, majestic villas, castles and masterpieces of modern architecture cannot be fitted with a run-of-the-mill entrance. And some simply refuse to have a regular-sized entrance. A select number of *Pirnar Ultimium®* entrances can be produced as Grande

entrances, measuring up to 300 cm in height and 280 cm in width. Along with side elements, they create an impression of breath-taking grandeur. Grande is a world of unparalleled elegance. It is an entrance for spaces and people that are larger than life.

CARBON
FOR EXCELLENT
SOLIDITY

THE BEST IS NOTICED BY THE BEST.

Innovative Pirnar entrance doors are setting new trends in the design of entrance doors. They have received numerous design awards. One of the most prestigious ones is the international German Design Award, awarded by the German Design Council.

THERE ARE ENTRANCES THAT TAKE YOUR BREATH AWAY

When they see some entrances, people just cannot find the words. They just have to stop for a while every time before entering.

Some entrances make us want to slide a hand over them. We want to feel them, not just see the tiny rifts and an exchange of material.

This is Ultimum® Pure. Purity of surfaces, where nothing disturbs the perfect flat facade. An entrance for the most up-to-date houses and the most demanding admirers of perfection. One where nothing can be added or taken away. All elements form a unified whole without unnecessary brims and frames. Where everything is one.

Pure is a secret. Touch it.

ENTRANCES THAT EVERYBODY NOTICES

ULTIMUM® MULTILEVEL is something people would never expect. It is a breakthrough that takes us away from a restrictive flatness into a 3-D world. It is a surprise that induces the spectator to come closer and touch a stirred surface. It is a tectonic movement in the design of entrance doors. It is an innovation that is achievable only with skilled hands and cutting-edge technology.

Ultimum® Multilevel is an outstanding and striking entrance for people with charisma. It is for people who are not afraid to speak their mind and display their own uniqueness. It is for leaders. The right entrance for you.

TOUCH IT.

To see a photograph of a *Pirnar Ultimum*[®] entrance is enrapturing. But it will not prepare you for the real surprise, which is when you look at these masterpieces with your own eyes and slide your hand over their surfaces and brims. Only then can you comprehend the size of an entrance. Only then would you feel how a door opens. Only then will you

understand what a feeling of firmness their exceptional thickness inspires.

Experience how it feels to be a guest standing in front of your house. Pure admiration.

Pirnar Ultimium[®] is the most exclusive choice from a larger group of Pirnar entrances, offering a rich palette of possibilities in design and price. You can adapt any door by choosing from a wide selection of additional features. You'll find more information in our *Premium* and *Optimum* catalogues, on our website www.pirnar.co.uk or at your local Pirnar representative.

ULTIMUM

For the most demanding customers. Astonishing innovations of beautiful forms. *Pirnar Ultimium*[®] entrances are the most admired and technologically perfect on the market. Designers line *Multilevel*, with its 3D multi-level thickness, and the *Pure* line, with its perfect flat surface of a door-sash, are uncompromising innovations with the unbelievably low thermal insulation quotient of 0.54 W/m²K, making them doors that have no equal.

PREMIUM

Exceptional thickness and forms, masterpieces of handwork. Pride of your home. *Pirnar Premium* entrances are of exceptional firmness and cutting-edge design and made for decades of proud use. It offers extraordinarily thick door panels, up to 105 mm, and a very low thermal insulation quotient 0.61 W/m²K. The ideal choice for energy saving homes.

OPTIMUM

Pirnar Optimum is something special. A premium entrance at a reasonable price, refined in design and arousing admiration. The perfect solution for prudent perfectionists. These doors boast exceptional thermal insulation from 0.65 W/m²K, soundproof insulation, faultless build and sturdy of the profiles.

Pirnar models are protected by copyright. We reserve the right to changes and errors in prices, text and technical description without prior notice. Pictures are symbolic and do not always reflect actual condition entirely. Variations in colour are possible due to the technical printing process. Colours should be checked using the RAL colour chart. Wood is a natural product. The individual parts of the work can show color differences despite the same kind of wood. Even a treatment with glazes can sometimes not eliminate this peculiarity. The resulting color differences must be tolerated as well as deviations from color patterns.
